SUBJECT : USIA/Kennan Institute Conference Series

1. Attached is the conference agenda for the first in a series of seminars held jointly by USIA and the Kennan Institute at the Wilson Center. Later sessions will deal with Soviet policies toward different regions of the world, and it might be of some interest to you. NIC representation on the Soviet side was evident during the first meeting; however, I am less certain whether the appropriate NIOs for other regions are aware of the conference series. If you are interested in attending, it can be arranged by calling USIA (Willis Brooks or William Freeman, 485-7124).

2. The first meeting was generally informative and at times stimulating. However, the meetings might be more productive if there were a better mix of Sovietologists and regional experts in talking about Soviet foreign policy toward different regions.
